# NGUYEN QUANG DUY

## APPLIED AI ENGINEER | LLM APPLICATIONS | RAG | PYTHON

Ho Chi Minh City, Vietnam | 0902577827 | nquangd1510@gmail.com

Portfolio: duytruyenthong.li2.sh/duytruyenthong

## PROFILE

Software and technology professional with a Computer Science background, building AI application prototypes with Python, LLM APIs and retrieval-augmented generation. Project work connects machine-learning outputs to user-facing applications. Brings React development, enterprise troubleshooting and requirements analysis to practical AI problem solving.

## RELEVANT SKILLS

**AI applications:** Gemini API, prompt engineering, semantic retrieval, RAG and AI-agent concepts.

**Programming & data:** Python, SQL, PostgreSQL, Pandas, NumPy, JavaScript and React.js.

**Model & application tools:** scikit-learn, LightGBM, XGBoost, PyTorch and Streamlit.

**Ways of working:** Requirements analysis, debugging, testing, technical documentation; Claude Code and Codex-assisted development.

## SELECTED APPLIED AI PROJECTS

**AI Knowledge Assistant | RAG architecture and support-automation prototype**

- Designed a knowledge-assistant architecture combining semantic retrieval with LLM generation to answer questions from internal knowledge sources.
- Prototyped retrieval and prompt workflows, and evaluated responses across common knowledge-based query scenarios.

**KKBox Customer Churn Prediction & AI Action Center | May 2026**

*Python, PostgreSQL, SQL, LightGBM, XGBoost, Gemini 2.5 Flash API*

- Integrated Gemini 2.5 Flash API to generate personalized push-notification copy from high-risk customer profiles, connecting model predictions to an AI-assisted action workflow.
- Engineered a PostgreSQL pipeline transforming 30M+ transactions into SQL-based RFM features, reducing data volume by 97% before model training.
- Benchmarked LightGBM, XGBoost and Random Forest on 825K users; LightGBM achieved AUC-ROC of 0.9517 and 80% recall for the churned class.

**Real-Time Pose Estimation & AI Push-Up Counter | Mar 2026**

- Built a Streamlit application with RTMPose and a state machine for repetition tracking, using elbow angles and geometric posture checks for feedback.
- Evaluated RTMPose at 14.5 FPS (approximately 1.9x the HRNet baseline on consumer hardware) and mapped 17-point to 14-point skeletons for zero-shot evaluation.

## NGUYEN QUANG DUY

### PROFESSIONAL EXPERIENCE

**iTechWX | Microsoft Technical Support Specialist | Apr 2025–Present**

- Diagnose Microsoft 365 incidents across OneDrive, SharePoint, Exchange Online and Teams; reproduce symptoms, validate configurations and isolate root causes.
- Own incidents from intake through verification: communicate with enterprise stakeholders, coordinate escalations to Microsoft engineering and contribute reusable troubleshooting knowledge.

**DUYTRUYENTHONG Agency | Founder & Operator | Feb 2024–Present**

- Translate client goals into websites, content systems and digital workflows; use Claude Code and Codex for rapid prototyping, service tooling and internal automation.
- Translate product requirements into prototypes and internal tools, including STOS, a sales-portfolio and traffic-to-sales system.

**NINA Web Service | Solution Consultant | Dec 2023–Dec 2024**

- Gathered business objectives, operational constraints and user needs; translated them into website architecture, UX, functionality and implementation requirements.
- Coordinated with clients and developers to align feasibility, scope and delivery, and recommended practical digital solutions.

**NINA Web Service | Web Developer | Jun 2023–Dec 2023**

- Developed React.js/JavaScript interfaces and application features; performed debugging, testing, integration and iterative improvements.
- Prototyped an AI-powered support chatbot using AI-agent and retrieval-augmented generation concepts for knowledge-based assistance.

**Amazing Tech | Junior Front-End Developer | Sep 2022–Jan 2023**

- Supported front-end refactoring, responsive UI implementation, debugging and code-maintainability improvements alongside senior developers.

### EDUCATION & LANGUAGES

**Bachelor of Computer Science | Vietnamese-German University | 2021–2026**

Selected coursework: Linear Algebra, Statistics and Discrete Mathematics.

English: Professional Working Proficiency | German: A2
